

# CORE VALUES

The Transmission of Values  
in the Digital Age

## 2021 EVENTS

December Membership Campaign

---

German College, Vatican City

European Parliament, Brussels, Belgium

## CORE VALUES

Core Values is an organization aiming at promoting universal values in the digital age, interacting with communication leaders and today's world leaders.

It proposes to plan and transmit new economic models and new practices for the universal "Common Good", on social economy in a perspective of Integral Ecology and enhancement of biodiversity.

*The Earth Charter asked us to leave behind a period of self-destruction and make a new start, but we have not as yet developed a universal awareness needed to achieve this. Here, I would echo that courageous challenge: "As never before in history, common destiny beckons us to seek a new beginning... Let ours be a time remembered for the awakening of a new reverence for life, the firm resolve to achieve sustainability, the quickening of the struggle for justice and peace, and the joyful celebration of life".*

*Laudato Si' 207*

Core Values main areas of expertise:

- Education & Formation
- Communications, Media & Advertising
- Finance & Economy: the Integral Ecology
- Life Sciences, Health Promotion

## MISSION

Core Values has spread various collaborative forms on topics such as economics, international cooperations, training, communication in its various forms with various Governments, Vatican Dicasteries, Corporations, Small-Medium enterprises, Organizations and Universities.

One of the main sectors of activity focuses on changing the financial world which, through new operating models, through a global ecological vision that places man at the center, must promote social economy and universal common good.

Today there is a clear global interest in new technologies and practices and demand for sharing experiences between countries of all income levels.

We are now facing key challenges in the transition to solutions that are well suited to address people and companies all over the world allowing them to consider policy frameworks and market systems. Technological advances and societal changes have triggered a drastic evolution.

Spreading the cardinal themes that the world is experiencing and raising world-wide awareness of the people of the world is the main mission of Core Values organization.

Core Values is also committed, through its President and Vice-President, to pursue the goals of the Barragan Foundation, on health for people in need, in agreement with the founder, Cardinal Javier Lozano y Barragan, President Emeritus of the Pontifical Council for the Pastoral of Health. Globalizing solidarity and creating value are Core Values' main goals.
